

Spotlight on Environmental and Earth Sciences Graduates

- Kyle Gaston '16 -

Conservation Officer

Nebraska Game and Parks Commission

Doane Highlights:

- The opportunity to explore a wide range of subjects pertaining to environmental science over the course of my education at Doane.
- Recipient of the Environmental and Earth Science Achievement Award.
- Assisting the building and outreach of the Nature Explore Outdoor Classroom.
- Being the President and building the Wildlife and Conservation Organization (W.A.C.O.).

Current Highlights:

- Graduate of the 197th Basic at the Nebraska Law Enforcement Training Center.
- Working outside in the scenic State Parks, Wildlife Management Areas, and State/Private Lakes.
- Conducting cases to stop those who want to abuse and take advantage of the wildlife and natural resources.
- Interacting with the public to allow everyone to have a safe and enjoyable experience in the outdoors.

Kyle Remembers:

I remember how everyone at Doane (faculty, staff, and students) were always supportive of my ideas and goals. They would not only help me generate ideas, but helped lay out the plan to make my ideas into a success. Doane also taught me how to build connections and relationships with others, and how important those connections are to building a successful career after Doane.
